

**SUBJECT: HONEYWELL AIR DATA, ATTITUDE AND HEADING REFERENCE SYSTEM (ADAHRS)
IMPROVED RELIABILITY**

To all Customers, Operators and Service Centers:

Date: Sep 20/21

Effectivity: All PC-12/47E Series Aircraft

This Service Letter is issued to advise operators that a new Honeywell ADAHRS unit with improved reliability P/N 065-00188-5105 (PIL P/N 985.99.12.389) has been introduced. The new ADAHRS replaces all existing versions (including high latitude).

The improved units are installed at production on MSN 2138 and Up.

The new unit may be installed as per the Illustrated Parts Data (IPD) and the Aircraft Maintenance Manual (AMM).

NOTE: With the new ADAHRS unit, the correct Certification File must be installed as given in the Software and Hardware Configuration table.

NOTE: The Certification File can be downloaded from Honeywell Aerospace Software and Data Services (ASDS). An account with Honeywell on <https://aerospace.honeywell.com> is required to download the file. The file can be found under Software & Data Services ASDS/ Go to my downloads. On the tab "Refine Product" select under "Purchase Category" FOC and select under "A/C Model" PC-12. Download the applicable Certification File.

Operators that require additional information should contact their authorized Pilatus Service Center, or Pilatus Customer Support on www.pilatus-aircraft.com → contact us.
